

Dear SC151 Student,

We'll be using OWL (Online Web Learning) as our online homework system this fall. Here are your directions to get access:

1. **First, get your OWL access code.** Codes come bundled with new textbooks purchased at USNA book issue.
2. Open a web browser on your computer and go to www.cengage.com/owl
3. On the menu that displays near the center of the screen, choose **General Chemistry** and the choose **Register**.
4. Scroll to the bottom of the next list that displays and choose the textbook:
Principles of Modern Chemistry
6th Edition, Oxtoby, Gillis and Campion

5. On the alphabetical list of schools that appears select: United States Naval Academy – Annapolis Maryland.
6. Choose the Chemistry Department by clicking on the blue arrow under **Student Registration**.
7. Choose the blue arrow next to the correct course and section you want to register for. Enter your information into the Self-Registration form. Type your access code into appropriate space and press **Continue**.

Once you reach the Student Registration: Successful Registration page, click on the Login Page link at the top. **Bookmark this login page** and use it whenever you visit OWL. Use the Login and Password you created during registration.

Alternatively, you can always get back to the login page from www.cengage.com/owl by choosing General Chemistry and then login. Then choose your textbook and school as above to get to the login page.
