ACADEMIC DEAN AND PROVOST INSTRUCTION 5420.4C

From: Academic Dean and Provost

Subj: HONORS PROGRAMS

1. Purpose. To establish rules for the Honors Programs.
2. Cancellation. ACDEANINST 5420.4B. No special markings appear because this instruction is a complete revision. The instruction should therefore be read in its entirety.
3. Background. On 24 July 1984, the Secretary of the Navy directed that the Superintendent establish honors programs in history, political science and such other humanities and social science majors as may be deemed appropriate and that such programs should lead to honors degrees. Accordingly, an honors program was established for the Class of 1988 and later classes in the four Division III majors. These departmental honors programs were expected to accomplish the following:
 - a. Build on existing quality in humanities and social sciences.
 - b. Integrate programs with the revised humanities and social sciences core.
 - c. Provide academic challenge for qualified midshipmen.
 - d. Yield improvements in the regular humanities and social sciences major programs through innovation and development in the honors courses. Subsequently, honors programs were established in Mathematics and Oceanography with similar goals.
4. Honors Program Committee. The Honors Program Committee will consist of the chairs, or their designees, of each department offering an honors program and will advise the Academic Dean and Provost on matters concerning the Honors Program. The committee will elect its chair annually.
5. Honors Program Requirements. In order to graduate with Honors in a major offering an honors program, a midshipman must meet the same standards in honor, conduct, military performance, physical education and summer training as required for all degrees at the Naval Academy. In addition, the midshipman must complete the honors matrix for that major and achieve the following standards of academic performance.
 - a. A minimum CQPR of 3.0 in all courses required for the core academic program plus EN200 and EM300 or their equivalents.
 - b. A minimum CQPR of 3.5 in all courses that comprise the majors portion of the honors major. Core courses in the discipline will not be included in this computation.

c. No grade of "D" or "F" on the final transcript in any academic or professional course is permitted.

6. Courses in Honors Majors. The matrices of honors majors may include more courses than in the regular major and they may include courses that are more rigorous than in the regular major. Honors majors may include special courses such as seminars, research seminars, colloquia, theses, and advanced topics. These will be listed as XX500-510 where XX refers to either HE, FE, HH, FP, SO, SM, or SA. Moreover,

XX500, 501, and 502 will designate two credit courses,
XX503, 504, and 505 will designate three credit courses, and
XX506-XX510 will designate four credit courses.

Honors supplement courses will have a credit structure of (1-0-1), or (0-2-1) and will be designated as follows:

XX520, 521, 522 are (1-0-1)
XX523, 524, 525 are (0-2-1)

7. Entry to Honors Program. Each department may set its own criteria for entry to its honors major, keeping in mind the criteria for receiving honors at graduation specified in paragraph 5. Department chairs will notify the Registrar when a midshipman moves from a regular major into the corresponding honors major.

8. Exit from Honors Program. Once enrolled in an honors program, a midshipman may disenroll voluntarily only at the end of a semester. The chair of the department administering the major may disenroll a midshipman who is failing to meet the requirements specified in paragraph 5 by notifying the midshipman and the Registrar. A midshipman who has a CQPR of at least 2.0 and successfully completes all requirements for a degree with honors except for one or more of the standards of performance specified in subparagraphs 5a, 5b, or 5c will graduate with a Bachelor of Science degree in the regular major, but without the honors designation.

9. Recognition of Achievement. The diploma and transcript of a midshipman successfully completing an honors major will bear the notation "Bachelor of Science, <Major>, with Honors." An award, sponsored by the Naval Intelligence Foundation, will be presented to that honors major graduate in each class deemed to have performed best in the Honors Program by the Honors Program Committee. Consideration for this award shall take into account the capstone papers written by the midshipmen.

10. Action. Departments administering honors majors will nominate honors degree recipients to the Academic Dean and Provost via their Division Director and the Registrar well in advance of graduation. The Registrar will call for these nominations in time to prepare diplomas.
