

2008 Summary of Research Reports

CDR David Myre
Aerospace Engineering Department
dmyre@usna.edu

Project: Network Warfare Command Support Of Space Systems Research And Teaching At The United States Naval Academy

Sponsor: Naval Network Warfare Command

Statement of Work:

See NNWC/USNA MOU- A synopsis follows: a. USNA Space Chair: These funds provide salary for the USNA Navy Space Chair and activities supporting astronautics education and research as outlined in the MOU between USNA and NNWC. These activities include attendance at conferences and meetings relevant to Navy space and general research in space science and engineering in support of Navy, DoD and other government space missions and R&D efforts. b. USNA SGS Technician: These funds provide salary for the USNA Satellite Ground Station technician. In addition these funds will be used to supplement engineering support which may include salary, purchases of required equipment and supplies for carrying out space education and research tasks within the Satellite Ground Station work center.
