

ENS Anthony Testino ('12) was named Macelwane Award winner by the American Meteorological Society (AMS). The Macelwane Award recognizes the top undergraduate research paper in 2012. Tony worked with Assistant Professor Bradford S. Barrett from the USNA Oceanography Department and co-authored a paper with him and another colleague (<http://journals.ametsoc.org/doi/abs/10.1175/JCLI-D-11-00216.1>). The Midshipman Research Office funded Tony's travel to the AMS Annual Meeting in January 2012, where he presented a poster and received nice feedback from several top scientists in the field.
