Computer Science Department U.S. Naval Academy

The U.S. Naval Academy's Computer Science Department invites applications for one or more tenure track positions at the rank of Assistant Professor. These positions are anticipated to begin in the Fall of 2012. A Ph.D. in Computer Science or closely related field is required.

Applicants will be considered from all areas of Computer Science, and must have a dedication to teaching, broad teaching interests, and a strong research program. Applicants with research interests in computer security, network security, and information assurance are especially encouraged to apply.

The Computer Science Department offers majors in Computer Science and Information Technology. All faculty teach courses in both majors. We currently have 85 CS majors, 100 IT majors and a faculty of 21. The department is housed in a state of the art building overlooking the scenic Severn River. Our spaces provide outstanding office, laboratory, and research facilities for both students and faculty, including specialized labs for robotics, networking, and information assurance in addition to three micro-computing labs and two high performance computing labs. In addition to computer science and information technology courses for the majors, we also teach a course on computer security to the entire freshman class.

The Naval Academy is an undergraduate institution located in historic downtown Annapolis, Maryland on the Chesapeake Bay. Roughly half of its faculty are tenured or tenure track civilian professors with Ph.D.s who balance teaching excellence with internationally recognized research programs. The remaining faculty are active duty military officers with Masters or Doctoral degrees. Each year the academy graduates roughly 1000 undergraduate students with majors in the sciences, engineering, and humanities. More information about the department and the Academy can be found at <http://www.usna.edu/cs/> and <http://www.usna.edu/>.

Applicants should send a cover letter, teaching and research statements, curriculum vitae, and arrange for three letters of recommendation that address both teaching and research abilities to be sent to cssearch@usna.edu.

Review of applications will begin in December, continuing until the position is filled.

The United States Naval Academy is an Affirmative Action/Equal Opportunity Employer. This agency provides reasonable accommodations to applicants with disabilities. This position is subject to the availability of funds.
