COMDTMIDN INSTRUCTION 4730.1A

Subj: BANCROFT HALL ZONE INSPECTIONS

Ref: (a) COMDMIDNIST 5400.6H

Encl: (1) Alpha Room Inspection Chit  
(2) Company Area Inspection Chit  
(3) Material Discrepancy Inspection Chit  
(4) Company Area Room Assignments  
(5) Company Area of Responsibility Plan  
(6) Zone Inspection Material Discrepancies without W/O's

1. Purpose. To define procedures, responsibilities and frequency for Brigade wide Zone Inspections and to provide guidelines for inspection criteria.

2. Cancellation. COMDTMIDNINST 4730.1

3. Discussion. Zone inspection will consist of two separate inspections, Alpha and Material Condition. These inspections shall be conducted four times a year: fall reform, fall mid-semester, spring reform, and prior to graduation. The purpose of the inspections is to provide a means to accurately assess the individual companies' ability to maintain its rooms and areas of responsibilities, and assess the overall material condition of Bancroft Hall. The inspection will also assess the ability of the Brigade to effectively identify, report, and track material deficiencies with the hall.

4. Action

a. Bancroft Hall First Lieutenant will schedule the inspections through the Commandant's Operations Office. On the day of inspection, the Bancroft Hall First Lieutenant will publish the list of items not in stock at the Bancroft Hall Self Help Store to the inspection teams. The Bancroft Hall First Lieutenant will also monitor the completion of the inspection.

b. Company Officer or Company Chief/Gunny will monitor the progress of the Zone Inspection in their company areas. The other will be considered an Inspection Team Spot-Checker to ensure the following:

(1) That each spot-checker randomly reinspects two rooms from each company.

(2) That both the Material Discrepancy and Alpha inspections were conducted fairly and impartially.

(3) That in the event that a room was determined not to be inspected fair and impartially, the inspection process stops and the inspection team is rebriefed on responsibilities and accountability.

c. Brigade Commander will equally distribute a minimum of 30 Regimental Staff and above into Battalion Inspection Teams to assist with the inspection process.

d. Brigade First Lieutenant will develop Battalion inspection assignments for each inspection and provide these assignments to the Inspecting Officers no later than two weeks prior to the scheduled inspection.

e. The Inspection Team will be broken up into two groups:

(1) The Alpha Inspection Team will consist of the Battalion Commander, five Company Commanders, four additional members of that Battalion's Staff, and five additional company staff members. 15 total inspection team members.

(2) The Material Discrepancy Inspection Team will consist of Battalion Executive Officer, Battalion First Lieutenant, five Company First Lieutenant's, three additional members of the Battalion Staff, and five Regimental Staff and above assigned by the Brigade Commander. 15 total inspection team members.

f. Company Executive Officer will ensure all rooms are presented in a proper military manner to the inspectors doing each individual room. This requires the room occupants to be standing in front of rooms at parade rest in the uniform of the day.

## 5. Procedures

a. Inspections shall be conducted in the following manner: Each battalion will inspect another battalion. The Battalion

Inspection Teams will conduct the appropriate inspections using enclosures (1) through (3). Inspectors will also verify that all rooms and areas of responsibility assigned to the company, per enclosure (4), are inspected.

b. No Midshipmen will be secured until room has received both inspections.

c. Battalion and Company space readiness

(1) Midshipmen rooms and wardrooms will be made alpha inspection ready per reference (a).

(2) Passageways, heads, ladder wells will be free of all gear adrift, loose trash, and clear of all unauthorized signs, markings, and paint.

(3) Companies are responsible for maintaining their areas of responsibility as described by enclosure (5), Company Area of Responsibility Plan. The areas are to be free of all foreign object debris, unauthorized signs, markings and paint. Broken gutters, tiles, brick and exterior doors are to be noted and reported via the First Lieutenant chain of command. In addition, companies are also responsible for all rooms in which company members are residing, even if those rooms are not contained within the company's area of responsibility. Companies with Brigade, Regimental, Honor, or any other out of company staff members residing in their company area will have their rooms inspected as part of that company. Material discrepancies and Alpha deficiencies will be annotated within that companies area of responsibility.

(4) Company First Lieutenants will ensure the following:

(a) That there is a blank, 3-part Class Alpha Room Inspection Chit (enclosure (1)) in each room prior to inspection commencing.

(b) That there is a Material Discrepancy Inspection Chit (enclosure (3)) in each room prior to inspection commencing. The W/O portion of the chit must be filled out for any outstanding work orders in the area applicable.

(c) That there is a Company Area Inspection Chit (enclosure (2)) at the Mate's desk prior to inspection commencing.

(5) Upon completion of room inspection, the individual inspectors will:

(a) For Alpha inspection, remove the top copy of the 3-part Class Alpha Room Inspection Chit and submit to the Battalion Commander of the inspection team. The remaining copies are for company use. Battalion Commander must also obtain the Company Area Inspection Chit from each company.

(b) For Material Discrepancy inspection, submit the Material Discrepancy Chit to the Battalion First Lieutenant of the inspection team.

(6) The inspecting Battalion Staff will compile both inspection results and the final results will be forwarded as follows:

(a) Inspected Battalion Alpha Inspection Results will be calculated for scores. Scores will be calculated by taking the total amount of hits per company divided by the amount of rooms inspected, entire company area counting as one room. The average hits per room per company will be forwarded to the Brigade Commander, using a memorandum format, for Brigade compilation. The Brigade Commander will forward results to the Commandant of Midshipmen via the chain of command. All room and common area inspection will be held by the inspecting Battalion and must be available upon request.

(b) Inspected Battalion Material Discrepancy Inspection results will be calculated for scores and forwarded to the Brigade First Lieutenant, using the Zone Inspection Material Discrepancies without W/O's form (enclosure (6)) for Brigade compilation. The Brigade First Lieutenant will forward results to the Commandant of Midshipmen via the Bancroft Hall First Lieutenant. All Material Discrepancy Inspection chits will be held by the inspecting Battalion and must be available upon request.

(7) All Company First Lieutenants will meet with the Bancroft Hall First Lieutenant within 3 working days to resolve all outstanding material discrepancies noted during the inspection. No additional work requests will be entered into the system until approved by the Bancroft Hall First Lieutenant.

(8) Results of both inspections will be published at a later date. The Alpha Inspection will count towards Color Company and the Material Discrepancy Inspection will count towards monetary allowances for the wardroom, if available.

CLASS ALPHA ROOM INSPECTION CHIT

Room Number:

ICOR:

A grade of UNSAT on any of the following items constitutes an overall UNSAT for the inspection:

- SAT UNSAT
() () Deck stripped properly
() () Deck waxed properly
() () Excessive dirt/was build-up in corners/around edges
() () Excessive dirty laundry in locker
() () Mold in shower and/or shower curtain

A total of four UNSAT's on any of the following items constitutes an overall UNSAT for the inspection:

- SAT UNSAT
INSPECTION READY:
() () White glove, black sock, pen, and completed chit on desk
() () All lockers, drawers, and medicine cabinet open
() () All lights turned on
GENERAL:
() () All surfaces clean and dusted
() () Nothing hung from bulkheads, overheads, closets racks or doors
() () Racks neatly made with clean linen
() () All 1st LT issued items present (chairs, trash can, pillows, etc.)
() () Up to one potted plant per room (max 6" diameter pot, 2" high)
() () Only furniture issued by 1st LT present
() () No unauthorized articles
() () Light fixtures cleaned on inside and outside
() () No gear adrift
LOCKERS/CLOSETS:
() () All food stored in air-tight containers
() () Closet stowage dark to light, left to right
() () Shoes clean and stowed white to black, top to bottom
() () Rifles/swords clean and locked
() () Folded clothing neat, aligned to shelf edge
() () Confidential lockers clean and orderly
SINK/SHOWER
() () Shower walls and floor clean and dry
() () Shower curtains clean and dry
() () All brightwork clean and unspotted
() () Medicine cabinet neatly arranged
() () Washbasin clean and dry
() () Clean towels and face clothes folded neatly
() () Mirrors free of streaks and spots
() () Cleaning gear stowed neatly underneath sink
() () No items in shower
WINDOWS/BLINDS
() () Window sills free of dust and dirt
() () Window Glass clean and spot free on inside
() () Blinds thoroughly cleaned and dust free
() () Blinds at half mast and open
() () Screens/storm windows shut as appropriate
DESKS
() () Drawers dusted, contents neat and orderly
() () Books stowed vertically, T to S, L to R, aligned with shelf edge
() () Electrical cords arranged neatly and orderly
() () Up to one bookshelf stereo system per occupant
() () Material on cork boards appropriate and arranged neatly
() () Items on blotter appropriate and arranged neatly
() () Chair clean and dust free
() () One computer per occupant present and clean

Score (-1 for each deficiency): /45 (NOTE: Maximum score for UNSAT is 25)
