

Nimitz Library Quick Tips: Web of Science

Web of Science

An index to scholarly literature for the sciences, social sciences, and humanities.

Our coverage extends back to 1985.

Access

Access from any machine connected to the USNA Network (either on the Yard or off-Yard via VPN).

Begin at Nimitz Library Homepage
Click on Databases
Click on Web of Science

The screenshot shows the ISI Web of Knowledge search interface. The search bar contains the text "ehrenberg, rg" in the Author field. Below the search bar, there are three search criteria: "ehrenberg, rg" in Author, "Example: O'Brian C" in Topic, and "Example: Cancer* OR Journal of Cancer Research and Clinical Oncology" in Publication Name. The search results area is highlighted with a red box, and a red arrow points from the search bar to the results area.

Example

Author search for Ehrenberg, RG
