

HOMWORK 2
SA305, SPRING 2012
INSTRUCTOR: PHILLIPS

Due: Friday, 1/27, 3:30pm.

- Write up and hand in your formulations. **Clearly** indicate which problem your formulation corresponds to. **Be sure to use the NPS format and to adequately describe all variables, parameters, and constraints.**
- Email me a **single** spreadsheet. Use the template file I have provided for your models.

1. Exercise 2.3.

2. Exercise 2.6

3. Use excel to solve the formulation for Exercise 2.1 (see the online homework solutions). On your sheet, do exercise 2.2, saving each solution on a different sheet.
