One of the most important decisions you will make at the Naval Academy is the selection of your major. Make this choice with great care; it will have a significant effect on your future.

It may not be possible for you to be assigned to your first choice because of the needs of the Naval Service or limited resources available at the Naval Academy. Therefore, you must enter a first and a second choice. It will be helpful for you to enter a third and a fourth choice, but doing so is at your option.
