PROVOST INSTRUCTION 5420.7A

From: Provost, U.S. Naval Academy

Subj: ANNUAL ASSESSMENT REPORTS - FACULTY SENATE ASSESSMENT

COMMITTEE

Ref: (a) ACDEANINST 5400.1A of 8 Sep 14

Enc1: (1) Program/Major Assessment Report Template Sample

(2) Programmatic Learning Outcomes and Curriculum Map

(3) USNA Attributes and Departmental Learning Outcomes Map

(4) Faculty Senate Assessment Committee Report Rubric for Majors and Minors

(5) Core Course/Learning Outcome Annual Status Assessment Report Template Sample

(6) USNA Core Learning Outcomes Proficiency Levels

(7) Core Learning Outcomes (CLOS) and Core Course Outcomes Map

(8) Faculty Senate Assessment Committee Report Rubric for Core Courses

(9) School Assessment Report Template

1. <u>Background</u>. To support the continuous improvement of midshipman learning and development, the Naval Academy assesses its academic programs as stated in Ref (a). In addition to documenting assessment activities for accreditation purposes, these reports may be shared to support the Academy Effectiveness Board's studies on institutional effectiveness, to inform other internal areas of the state of assessment at USNA, and to identify good practices and possible areas of collaboration.

2. Department and/or Program Assessment Reports

- a. Reports should be written to be meaningful and useful to the programs conducting the assessments, while also providing sufficient information for members of the Faculty Senate Assessment Committee to follow the process used to obtain results.
- b. Departments and programs will submit annual status reports for majors, minors, and the core documenting assessment processes, decisions based on the results of previous assessments, and assessment activities undertaken in the most recent academic year as detailed in Enclosures 1 and 2. Annual status reports should include:
 - (1) Direct evidence of student learning, using student work products.

- (2) Explicit mapping of student learning outcomes and assessment activities.
- (3) Clearly reported results obtained from assessment activities.
- (4) Programmatic decisions based on this evidence summarized in the body of the report.
- c. Reports should provide information about the processes and methods used to collect/observe and analyze student work products. Supplementary materials such as assessment instruments, graphs and tables of results, and other relevant supporting information should be included as appendices.
- d. A retrospective report is an option when the program is preparing for a periodic, program-specific external review with an emphasis on assessment reporting (such as ABET self-studies). All reports, retrospective and annual status, are expected to include the department/program learning outcomes mapped to the curriculum and departmental learning outcomes mapped to the USNA attributes.
- 3. <u>School Assessment Reports</u>. Each School is required to submit an annual assessment report. The School Core Assessment Reports should describe the School Core Assessment Status regarding the implementation of its assessment plans. A template is provided in Enclosure 7.

4. Action

- a. Departmental assessment reports will be submitted electronically to the Faculty Senate Assessment Committee through the Associate Provost for Planning and Assessment no later than the last day of the Academic Year (mid-June). Requests for extensions should be made to the Associate Provost for Planning and Assessment and school/division leadership by May 31st and require a justification, proposed delivery date not to exceed the last day of August, and points of contact including the department chair or program director.
- b. School assessment status will be communicated to the Faculty Senate Assessment Committee through the Associate Provost for Planning and Assessment no later than 01 NOV.

5. Records Management

- a. Records created as a result of this instruction, regardless of format or media, must be maintained and dispositioned per the records disposition schedules located on the DON Assistant for Administration, Directives and Records Management Division portal page https://portal.secnav.navy.mil/orgs/DUSNM/DONAA/DRM/Records-and-Information-Management/Approved%20Record%20Schedules/Forms/AllItems.aspx.
- b. For questions concerning the management of records related to this instruction or the records disposition schedules, please contact your local record custodian or the USNA Records Manager.
- 6. <u>Review and Effective Date</u>. Per OPNAVINST 5215.17A, the Associate Provost for Planning and Assessment will review this instruction annually on the anniversary of its effective date to ensure applicability, currency, and consistency with Federal, DoD, SECNAV, and Navy policy

and Assessment will review this instruction annually on the anniversary of its effective date to ensure applicability, currency, and consistency with Federal, DoD, SECNAV, and Navy policy and statutory authority using OPNAV 5215/40 Review of Instruction.

A. T. PHILLIPS

Releasability and distribution:

This instruction is cleared for public release and is available electronically only via the Provost Instructions website: https://www.usna.edu/Academics/Provost/Rules-Regulations/Instructions.php

PROGRAM/MAJOR ASSESSMENT REPORT TEMPLATE SAMPLE

DEPARTMENT NAME/PROGRAM ASSESSED:	
DEPARTMENTCHAIR/POC:	Q.
COMMITTEE MEMBERS:	
DATE:	

- 1. Summary of Assessment Driven Actions
 - A. Actions completed based on the results from previous years' assessment findings.
 - B. Status of ongoing actions based on the results from previous years' assessment findings.
 - C. Actions planned as a result of the current year's assessment findings.
- 2. Report on Current Academic Year's Assessment Activities
- A. Provide a current list of program/departmental outcomes. Indicate the outcomes assessed this year.
 - B. For each outcome assessed:
- 1. Provide a brief description of the assessment sources, including student work, and methods used by the department and/or program to collect data.
 - Assessment Method: How was evidence of student learning collected or observed?
 - Was the evidence direct or indirect assessment data? For example test results (direct) vs student self-assessments (indirect).
 - Data Collection Method: What student group(s) were studied? How were they selected?

For example:

Learning Outcome	Assessment Method	Direct Assessment of Learning	Data Collection Method
LO1. Lorem Ipsum	USN101 Final Report and Presentation with Rubric	Yes	Random sample every 3rd student
LO1. Lorem Ipsum	Senior Exit Survey	No	Population
		Y/N	

- 2. Include a brief description of the process for organizing and analyzing the evidence of student learning.
 - How was student work analyzed?
 - What person or group analyzed the student work?
 - Please include rubrics, scoring guides, etc. as an appendix.

- 3. Results obtained,
 - The extent to which students met the expectations of learning, as determined by the department or program.
 - What is the department's interpretation of the results?
 - Do the results meet the department's thresholds?
- 4. Lessons learned and actions recommended based on this year's assessment activities.
 - For each of the actions listed in I.3 above, describe the proposed changes, the supporting evidence, the rationale, and the plan for implementation.
 - o The plan for implementation should include point of contact, timeline, and any necessary approvals.
 - o Does the plan for implementation require significant curricular changes that would need to be reviewed by the Faculty Senate Curriculum Committee?
- 3. An overview of the program assessment plans for each program coordinated/administered by the department.
 - A. It is expected that this overview will remain largely the same from year to year. However, revisions should be made to reflect recent or planned changes in the curriculum or the assessment plan and highlighted in the annual report.

B. This overview should:

- a. Describe the overall structure and operation of the assessment plan to assess all outcomes over a reasonable period of time and provide the assessment plans that are in place for the coming academic year.
 - b. Include maps of the programmatic learning outcomes to the department's curriculum (see enclosure 2).
- c. Include maps of the programmatic learning outcomes to applicable portions of USNA's Graduate Attributes (see enclosure 3).

*Attributes of a USNA Graduate: usna.edu/StrategicPlan/attributes.php

SELFLESS - Places the needs of the Nation, the Navy, peers, and subordinates before personal recognition or reward.

PROFESSIONAL - Dedicated to the profession of arms, traditions and values of the Naval Service, and the constitutional foundation of the United States of America.

INCLUSIVE - Fosters a respectful environment in which diverse experiences, perspectives, and knowledge are sought out, valued, and leveraged.

RESILIENT - Possesses the toughness, grit, and perseverance to withstand and recover quickly from difficult conditions.

ADAPTABLE - Recognizes, assesses, and understands new conditions, ideas, environments, and cultures and makes appropriate adjustments to succeed.

LEARNED - Broadly educated in academic and professional fields with focused disciplinary knowledge that enables the application of skills in complex and changing conditions through a lifetime of learning.

COURAGEOUS - Possesses the moral, mental, and physical strength to do that which is right, with determination, even in the face of temptation or adversity.

HONORABLE - Does what is right; conducts oneself in the highest ethical manner and is accountable for one's professional and personal behavior.

ARTICULATE - Clearly conveys ideas and specialized information through written and spoken word.

INNOVATIVE - Thinks critically to find and develop creative solutions for an increasingly complex world.

USNA ATTRIBUTES AND DEPARTMENTAL LEARNING OUTCOMES MAP

FACULTY SENATE ASSESSMENT COMMITTEE REPORT RUBRIC FOR MAJORS AND MINORS

Assessment Rubric: Majors/Minors

Assessment F	Rubric Major				
Department N					
					· · · · · · · · · · · · · · · · · · ·
For each crite	erion, please sele	ect the column that best de	scribes the department's or program's overall curren	nt status.	
		Exceptional	Fully Met	Developing	Not Present
Student Learning Outcomes (sometimes called	Student Centered		Learning outcomes are student centered statements of what students will know or be able to do.	Learning outcomes are not student centered, instead indicating what the department or instructors will do.	
objectives or goals):	Level of Thinking		Learning outcomes culminate in the highest (appropriate) levels of thinking. (www.usna.edu/Academics/Academic - Dean/Assessment/index.php).	Learning outcomes primarily focus on what students will know or understand, but not how they will use that knowledge or understanding.	
	Curriculum Coverage		The number of outcomes is reasonable to cover essential learning within the program. There are not too many outcomes (suggesting that some can be combined) or too few (suggesting that outcomes need to be unpacked).	The outcomes either fail to cover essential learning within the program or address areas tangential to the program.	

FACULTY SENATE ASSESSMENT COMMITTEE REPORT RUBRIC FOR MAJORS AND MINORS

Assessment is an On-Going Process	On-going		Assessment is an on-going process of data collection, evaluation, and improvement with departmental outcomes scheduled to be assessed over a reasonable period of time (about every 4 years).	Not all outcomes are scheduled to be assessed or assessment is occurring on an episodic basis.	
	Assessment Action	As appropriate, action(s) have been taken, based on the findings from past assessments. The effect of those actions on student learning and outcome achievement have been assessed and evaluated (collection, evaluation, action, and evaluation of action)	As appropriate, action(s) have been taken on the findings completing an assessment cycle (collection, evaluation, and action).	Assessment takes place, but there is no documentation that results are used to inform departmental discussions or decisions about curriculum, teaching strategies or student learning.	
Alignment of Department/ Program Learning	Levels of Development		Levels of development for each department/program learning outcome are identified within the department's curriculum. (Where learning is introduced, reinforced or practiced, where mastery or competency is achieved and where assessment takes place.)	Presence or absence of outcome identified for each course in the curriculum. Levels are indicated only for the department's required courses.	
Outcomes (Map)	Graduate Attribute		The portion of the Graduate Attribute that is addressed by the department/program learning outcome (including the complete Attribute when appropriate) is identified	Presence or absence of outcome identified for each of the USNA's Seven Attributes of Graduates (either complete or partial).	

Methodology	Direct Assessment	Multiple assessments (including, but not limited to, direct assessments of student learning; e.g., essays, exam items, assignments, presentations, etc. and rubrics/scoring guides as appropriate) appropriate for each learning outcome being measured.	Direct assessment in which student work (essays, exam items, assignments, presentations, etc. and rubrics/scoring guides as appropriate) has been selected that is appropriate for each learning outcome being measured	Only indirect assessments, that do not directly examine student work, are being used. Possibilities include student self-perception of ability, grades not specifically linked to outcomes, faculty evaluations that are not linked to student work.	
	Collection	measured.	Student work is an appropriately collected sample (simple random or systematic), a population, or otherwise suitably selected to ensure that results are representative and the amount of work is feasible for the assessment committee	Assessment materials do not include student work and/or are gathered on a volunteer or an ad hoc basis. The collected materials are either too little or too much for the committee to reasonably examine.	
	Collaborative Effort	Assessment of student work or other assessment materials and/or analysis of results is a collaborative activity shared by multiple faculty members and, when appropriate, procedures for improving rater agreement (inter rater reliability) are indicated	Assessment of student work or other assessment materials and/or analysis of results is a collaborative activity shared by multiple faculty members.	Assessment of student work or other assessment materials takes place in isolation and/or analysis of results is primarily handled by a single individual	
Performance	Performance	Target level or performance expectations are indicated for students at various points within the program reflecting expected development	Target level or performance expectations are indicated for the assessment and appear appropriate.	Criteria for different levels of performance have been indicated, but expectations are not clearly identified or are inappropriate (much too high or too low).

$\frac{\text{CORE COURSE/LEARNING OUTCOME ANNUAL STATUS ASSESSMENT REPORT}{\text{TEMPLATE SAMPLE}}$

DEPARTMENT NAME/PROGRAM ASSESSED:	
DEPARTMENTCHAIR/POC:	
COMMITTEE MEMBERS:	
DATE:	

- 1. Summary of Assessment Driven Actions
 - A. Actions completed based on the results from previous years' assessment findings.
 - B. Status of ongoing actions based on the results from previous years' assessment findings.
 - 'C. Actions planned as a result of the current year's assessment findings.
- 2. Report on Current Academic Year's Assessment Activities
- A. Provide a current list of learning outcomes for the department's core. Indicate the outcomes assessed this year.
 - 1) For each outcome assessed:
- a). Provide a brief description of the assessment sources, including student work, and methods used by the department and/or program to collect data.
 - Assessment Method: How was evidence of student learning collected or observed?
 - Was the evidence direct or indirect assessment data? For example test results (direct) vs student self-assessments (indirect).
 - Data Collection Method: What student group(s) were studied? How were they selected?
 - Criteria for Min Prof Met: Describe the level of performance on this assessment method a student would need to meet expectations for minimum proficiency on this learning outcome.

1 01	examp	10.

Learning Outcome	Assessment Method	Direct Assessment of Learning	Data Collection Method	Criteria for Minimum Proficiency being Met
LO1. Lorem Ipsum	USN101 Final Report and Presentation with Rubric	Yes	Random sample every 3rd student	Overall rubric score of 4.5
LO1. Lorem Ipsum	End of Course Survey	No	Population	
LO2.	Exam	Yes	Population	70% on the items that align with the LO.

- ii. Include a brief description of the process for organizing and analyzing the evidence of student learning.
 - How was student work analyzed?
 - What person or group analyzed the student work?
 - Please include rubrics, scoring guides, etc. as an appendix.
 - iv. Results obtained,
 - The extent to which students met the expectations of learning, as determined by the department.
 - What is the department's interpretation of the results?
 - Do the results meet the department's thresholds?
 - 1. Lessons learned and actions recommended based on this year's assessment activities.
 - For each of the actions listed in I.3 above, describe the proposed changes, the supporting evidence, the rationale, and the plan for implementation.
 - o The plan for implementation should include point of contact, timeline, and any necessary approvals.
 - Does the plan for implementation require significant curricular changes that would need to be reviewed by the Faculty Senate Curriculum Committee?
 - o How will this information be shared with appropriate groups (department/division/school, etc.)?
- III. Indicate level of proficiency for one or more of the <u>USNA core learning outcome(s)</u> that align with the student learning outcome(s) reported on in Enclosure 5 Section II above.
- 1. Include information indicating the core course, the learning outcome, and the related USNA core learning outcome, and the level of proficiency demonstrated (see enclosure 6).
- 2. As appropriate, interpretation of/satisfaction with core learning outcome results (beyond what was reported in Enclosure 5, Section II above). Additional lessons learned or actions recommended (beyond those reported in Enclosure 5, Section II above.
 - IV. An overview of the program assessment plans for its core learning outcomes and the core courses offered by the department.
 - 1. It is expected that this overview will remain largely the same from year to year. However, revisions should be made to reflect recent or planned changes in the curriculum or the assessment plan and highlighted in the annual report.
 - 2. This overview should:
 - Describe the overall structure and operation of the assessment plan to assess all outcomes over a reasonable period of time and provide the assessment plans that are in place for the coming academic year.
 - ii. Include maps of the core learning outcomes to applicable portions of USNA's Core Curricular Learning Outcomes (see enclosure 7).

USNA CORE LEARNING OUTCOMES PROFICIENCY LEVELS

DEPARTMENT/CORE COURSE(S):		RESPONDENT/DATE:
	•	

The skills, abilities, and knowledge articulated in the nine USNA core learning outcomes align within and across the courses that make up the USNA core curriculum required of all midshipmen. Use the table below to indicate the level of proficiency for one or more of the overarching USNA core learning outcome(s) that align with the student learning outcome(s) reported on in section II of the report.*

USNA Core	Course	Core	# of	Proficiency Sca	Proficiency Scale

		HERE							
INSERT TEXT HERE	INSERT	INSERT	INSERT	INSERT#	INSERT #	INSERT #	INSERT #	INSERT #	INSERT #
	TEXT HERE	TEXT HERE	# HERE	HERE	HERE	HERE	HERE	HERE	HERE

^{*} Within individual core courses and certainly within departments that provide instruction for multiple core courses it is likely that individual outcomes are covered at multiple points. If a learning outcome is being formally assessed at multiple points, departments should use their best judgment to determine if data from all current annual assessment activities should be reported or if there are focused assessments that are more appropriate (e.g., from the final course in the sequence or from a more targeted assessment that is well aligned with both the course and the core curricular outcome).

USNA CORE LEARNING OUTCOMES PROFICIENCY LEVELS

Example:

USNA Core Learning Outcome	Course Outcome	Core Course(s)	# of cases	Proficiency Scale (Level of Expectation Met as Determined by Department)					(Level of Expectation Met as Determined by Department)			# of cases that meet or exceeded departmental expectations
				Expectations N	lot Met	Expectations N	/let	Expectation s Exceeded				
				Little or no evidence of proficiency	Evidence of approaching proficiency	Minimum level of proficiency evident	Full proficiency evident	Evidence of proficiency exceeds expectations

CORE LEARNING OUTCOMES (CLOS) AND CORE COURSE OUTCOMES MAP

USNA Core Learning Outcomes

- 1) Apply leadership skills: use contemporary leadership theories to support and motivate diverse team members in the accomplishment of objectives.
- 2) Reason morally/ethically: recognize moral dilemmas and use ethical frameworks and principles to generate solutions that embody the highest moral standards.
- 3) Apply principles of naval science and the profession of arms: Operate naval technology, demonstrate navigation skills, and generate solutions to given warfare scenarios.
- 4) Solve technical problems: apply fundamental principles from science, engineering, and mathematics to solve technical problems in both standard operating and unfamiliar contexts.
- 5) Communicate effectively: develop, organize, and communicate information and ideas through written, oral, and visual media.
- 6) Critically reason: sufficiently obtain, critically analyze, appropriately interpret, and use quantitative data and qualitative information to construct creative solutions to complex problems.
- 7) Understand American heritage: articulate core American values and diverse experiences with an awareness of multiple cultural contexts.
- 8) Interpret past and current world events: interpret past and current world events through an awareness of different cultures.
- 9) Demonstrate intellectual curiosity: apply self-directed learning strategies to improve knowledge, skills, and abilities beyond requirements.

DATE:	

- I. Actions taken based on previous years' assessment activities. Include relevant supporting data as an appendix—it is not necessary to provide entire core assessment reports that were submitted at the end of the academic year.
 - II. School level review of the effectiveness of the core curriculum.
 - 1. Indicate the overall effectiveness of the core (and its constituent courses) by drawing from core assessment reports and intra (and as appropriate inter) school/division conversations among faculty.
 - 2. Explain how the school assessment committee will provide feedback to the department/program chairs, faculty, and committees responsible for assessment of the core curriculum.
 - 3. Describe plans to improve student learning, the curriculum, or assessment, as appropriate given the results.
 - 4. Indicate to what extent inter/intra school/division coordination, discussion, and plans for future activities related to the core are taking place or planned.

Direct, and as appropriate indirect evidence, of student learning and the programmatic decisions based on this evidence should be summarized in the body of the report. However, supplementary materials such as assessment instruments, graphs and tables of results, and other relevant supporting information should be included as appendices.

8 Sep 2022

The skills, abilities, and knowledge articulated in the nine USNA core learning outcomes align within and across the courses that make up the USNA core curriculum required of all midshipmen. Use the table below to indicate the level of proficiency for one or more of the overarching <u>USNA core learning outcome(s)</u> that align with the student learning outcome(s) reported on in section II of the report.*

USNA Core	Course	Core	# of	Proficiency So	Proficiency Scale
