

In response to updated DoD Policy, the Office of Admissions will begin implementing new COVID-19 screening protocols the week of 20 Sep 21 for participation in all U.S. Naval Academy Admissions programs. Candidates, students, parents and others attending a candidate tour, Admissions brief or meeting with Admissions personnel must be fully vaccinated (see note 1) or provide a negative COVID-19 test within three days of visiting the Naval Academy. If vaccinated, official visitors will be asked to complete DD Form 3150 ([DD Form 3150 Certification of Vaccination](#)) to certify vaccination. This form will be required at check in and must be retained for the entirety of the visit to show to Department of Defense (DoD) personnel upon request. If unvaccinated or choosing not to provide vaccination results, visitors will be required to provide an electronic or paper copy of a negative COVID-19 test administered no earlier than three days prior to the visit. Any official visitor who is not vaccinated or fails to show a negative COVID-19 test result will not be allowed to participate in any program.

Candidates participating in a Candidate Visit Weekend are the exception and must be **fully vaccinated**. Each candidate participating in this program will be asked to complete DD Form 3150 to certify vaccination status as discussed above.

Note 1: Fully vaccinated is defined as 14 days after the completion of the final dosage of COVID vaccine.
