Student Quick Reference Guide

Access Course Recordings

1. Log onto Blackboard using your USNA username and password.
2. Click on a course title to enter the course Blackboard site under My Courses section.
3. You will see a Tegrity Classes link on the left side course menu.

4. Click on the link, and it will direct you to the Tegrity classes recorded and published for this course. The most recent recordings appear at the top of the list. Note: you need to turn-off the pop-up blocker.

5. The following information appears on the Tegrity Class Recordings page:
   a. Classes — Recording title given to each class in the list
   b. Recorded — Date each class was recorded
   c. Duration — Time it takes (in minutes and seconds) to play the entire recording

6. Upon clicking on the recording you wish to view, the recording will expand showing a series of thumbnails from your professor’s recording. Tegrity automatically divides the recording into chapters, making it easier to navigate through the material.

7. Click a thumbnail to start the playback. The class recording playback starts at the thumbnail you selected.

Access Recordings in Other Courses
To access recordings in other courses, click on the Courses hyperlink on the upper left hand corner.
