The Thrift Savings Plan is an optional tax deferred savings plan available to employees covered by the Civil Service Retirement System (CSRS) and the Federal Employee Retirement System (FERS). It is an important aspect of the three-tiered retirement plan for FERS employees, which also includes Social Security and a basic annuity. It is patterned after the tax-advantaged savings plans widely available in the private sector and provides FERS and CSRS employees with the means to save for their eventual retirement needs. Learn how TSP can be a **vital** part of your retirement, and the tax advantage of investing. A speaker from the Federal Retirement Thrift Investment Board will cover all of the basics as well as any new items available in the plan.
