         (4) Cleanup Bill

1. **Purpose.** To provide a clear and precise instruction for expectations and execution for Midshipman Candidate (M/C) watchstanding.

2. **Background.** Every M/C is expected to graduate NAPS with an excellent understanding of proper watchstanding procedures. Watchstanding is an integral part of military life and NAPS will help build the proper foundation for watchstanding procedures.

3. **Scope.** This instruction applies to all M/Cs and NAPS CDOs.

4. **General Orders of the Sentry**

   a. All M/Cs shall be capable of reciting the following General Orders at all times and are responsible for executing them while on duty:

      (1) To take charge of this post and all government property in view.

      (2) To walk my post in a military manner, keeping always on the alert, and observing everything that takes place within sight or hearing.

      (3) To report all violations of orders I am instructed to enforce.

      (4) To repeat all calls from posts more distant to the guardhouse than my own.

      (5) To quit my post only when properly relieved.
(6) To receive, obey, and pass on to the sentry who relieves me, all orders from the Commanding Officer, Command Duty Officer, and officers and non-commissioned officers of the guard only.

(7) To talk to no one except in the line of duty.

(8) To give the alarm in case of fire or disorder.

(9) To call the Command Duty Officer in any case not covered by instructions.

(10) To salute all officers and all colors and standards not cased.

(11) To be especially watchful at night, and during the time of challenging, to challenge all persons on or near my post and to allow no one to pass without proper authority.

5. Purpose

a. M/Cs on watch are responsible for knowing and enforcing NAPS regulations, ensuring the safety of all M/Cs, and safeguarding personal and public property. Watchstanders will execute the POD and conduct themselves in an impartial and professional manner.

b. NAPS watchstanders will adhere to the watchstanding policies and procedures similar to those practiced in the fleet. A thorough understanding of NAPS policies and procedures will prepare M/Cs for watches they will stand at the United States Naval Academy (USNA).

6. General Instructions for Watchstanders

a. Be thoroughly familiar with and enforce NAPS regulations.

b. Stand watch in accordance with the 11 General Orders of the Sentry.

c. Notify the next senior watchstander if instructed, by someone outside the watch chain of command, to perform a task, which interferes with normal duties.

d. Faithfully discharge assigned duties as outlined in this manual and watch instructions. Watchstanders may study academic or professional reading material while on watch so long as doing so does not interfere with their watchstanding duties. Reading material such as novels, newspapers and magazines while on watch is prohibited.

e. Watchstanders will not permit loitering by other M/Cs at their post.

f. The uniform for watchstanding is the uniform of the day unless directed otherwise.

g. The Quarterdeck is manned by the Officer of the Deck (OOD). The Security Rovers will be standing and/or roving at all times.
h. Tobacco products and eating are prohibited while on watch. Drinks are authorized. If a M/C will miss a meal due to watchstanding, they should be temporarily relieved by a supernumerary to attend chow, then return to their post once finished.

i. Salute at the beginning and end of any conversation when reporting to/addressing an officer. Salute all officers who are in or out of uniform. Call attention on deck when an O-4 or above approaches the watch station. When approached by the CDO, give the greeting of the day followed by the condition of your watch station.

j. Report for duty 15 minutes prior to the scheduled watch. The first watch will meet with the Command Duty Officer (CDO) prior to posting. Relieve the watch as follows:

(1) The oncoming watchstander reports to the M/C they are about to relieve, salutes, and states, "Sir/Ma'am, I am ready to relieve you." The off going watchstander salutes and responds, "Sir/Ma'am, I am ready to be relieved." Then, the off going watchstander thoroughly briefs their relief on any unexecuted orders, special instructions, or potential problems. The oncoming watchstander ensures they fully understands these orders and/or instructions and assumes the watch.

(2) When ready to assume the watch, the oncoming watchstander salutes, and states, "Sir/Ma'am, I relieve you." The off going watch returns the salute and states, "Sir/Ma'am, I stand relieved." Now, the transfer of authority and responsibility is complete.

(3) Record the relief of the watch station in the Deck Log/Security Rover logbook.

(4) Should a situation justify doing so, a watchstander may refuse to relieve the watch. They will immediately report the event to the CDO and follow their direction.

7. Battalion Duty Organization and Responsibilities

a. Battalion watch administrative chain of command:

(1) Senior Watch Officer (SWO). The SWO is the military staff member who supervises the Battalion watch and is responsible for all M/C watch training.

b. Battalion watch operational chain of command:

(1) Command Duty Officer (CDO). The CDO exercises operational control over the watch and shall conduct the watch in accordance with NAPSINST 1601.1(series) and other pertinent NAPS, NAVSTA Newport, and U.S. Navy instructions. c. **Watches.** Ripley Hall will be manned with three watchstanders consisting of an Officer of the Deck and two Security Rovers. The Officer of the Deck will man the Quarterdeck and the Security Rovers will conduct continuous security rounds of Ripley Hall. Further details are addressed within this chapter.

(f) Make rounds every 30 minutes throughout the decks of Ripley Hall in pairs. SR will make additional rounds in Perry Hall at CDO discretion.

(g) Sound reveille.

(3) **Duty Driver**. A M/C, not currently acting as the day’s Duty Platoon Commander, who has completed the Navy’s Driver Safety Course and has a valid driver’s license will be assigned on the watchbill as the duty driver. The M/C duty driver stands a 24-hour duty on weekends. Responsibilities include:

(a) Ensure the CDO is aware of the duty driver location at all times by reporting to the CDO prior to each departure and upon return. Duty Drivers should provide the CDO with their personal cell phone number.

(b) Ensure that the duty vehicles are clean, inspected, and fueled at the beginning of each day.

(c) Use seat belts at all times and ensure passengers do the same. Always adhere to posted speed limits, adjusting speed in accordance with prevailing weather conditions.

(g) Complete computer-based 15 Passenger Van Driver’s Improvement Course.

(k) Shall not be on academic probation.

(4) Supernumerary. Supernumeraries fill unexpected vacancies in the duty platoon. They also serve as meal relief for watchstanders, providing relief no later than 0645 for morning meal (0745 on Sunday), 1200 for noon meal, and 1730 for evening meal.

(5) Duty Platoon. Each platoon will sequentially rotate through the duty. Duty platoon rotations are defined by the Battalion Officer. Once a M/C has been assigned a watch by their respective Company Staff, they are required to fulfill the obligation unless the respective Company Staff approves a special request chit.

8. Watchbill

a. Duty Platoon Watchbill Preparation. IAW Enclosure (1) and Enclosure (2) the Platoon Executive Officer will assign only one watch per M/C per duty day. The Platoon Executive Officer will route the watchbill 72 hours prior to the Company Officer for approval and post on the Platoon passageway 24 hours prior to the duty day. Platoon Executive Officers are required to review and de-conflict with the NAPS sports schedules, rosters, and movement orders when drafting watchbills. M/Cs will not assign watches as punishment for extra duty.

b. Duty Swap. Only special circumstances rate consideration. The Company Staff will consider requests for exchanges and standbys only when submitted on a special request chit via the M/C’s chain of command. These chits should include the signatures of each watchstander involved, the specific watch to be switched, and the date of the exchange. Exchanges of duty will be made between personnel of equal qualification (i.e. the Duty Platoon Commander may not exchange duty with a M/C not qualified to stand as Duty Platoon Commander). The Platoon Executive Officer will change the watchbill only upon receipt of an approved request chit. M/Cs must keep in mind that a duty “day” consists of a 24-hour period; any standbys will be required to be present for the entire duty period. The exchange of duty for any form of payment is prohibited.

c. Changes to the Watchbill. Once the Company Officer approves the watchbill, only the Company Officer or the CDO can authorize changes.

d. Checking the Watchbill. Members of the oncoming duty platoon shall check the watchbill once posted by the Platoon Executive Officer. Each M/C assigned a watch will acknowledge their assignment by initialing beside their name. Since each M/C has a duty to read the watchbill, failure to do so does not excuse an individual from an unauthorized absence (U/A) from an assigned watch.
9. Duty Day

a. General Information. The duty day starts at 0600 and ends at 0600 the following day, these days begin with a duty platoon muster. Duty platoon members will remain in the vicinity of Ripley Hall, Ney Hall, or Perry Hall. At the CDO’s discretion, they may check out with the CDO to the Exchange, Naval Station Newport Fitness Center or the Chapel of Hope.

b. Academic Probation. Students who are on academic probation should not be assigned watch during evening study hour.

c. Class Attendance. No M/C will miss or be late for class or mandatory study due to watchstanding duty.

d. In-Season Athletes. In-season athletes will not stand watches that conflict with regularly scheduled practices or games.

e. Late Movement Orders. If a last minute movement order (i.e., one that is not approved 72 hours prior to the event) conflicts with a properly submitted watchbill, the M/C assigned watch must find a replacement in order to execute the movement order.

f. Personnel exempt from watch. Battalion staff members, Company Commanders, and Company Executive Officers as well as Rowan Award winners are the only personnel exempt from standing watch. Company staff members will stand the Duty Platoon Commander watch only if designated. M/Cs who are SIQ are exempt from watch.

g. Watch. The oncoming Duty Platoon Commander presents the oncoming duty platoon to the CDO at the Ripley Hall Quarterdeck for the first scheduled Duty Platoon Muster of the day. The CDO will inspect the duty platoon and pass down information for the day. The Duty Platoon Commander will then assign cleaning duties for the duty day.

10. Logs

a. General. Logs are official legal documents of the U.S. Government and therefore are maintained with professionalism. Failure to do so may result in a conduct offense.

b. Log Entries

(1) All log entries, except where written signatures are required, are printed (non-cursive) neatly in capital letters using a black ink ballpoint pen.

(2) All zeros will be slashed with a diagonal line right to left.

(3) Errors will be corrected by single lining through it with a straightedge. The correct entry is then entered beside the correction. The watchstander will initial in front of the time as evidence that the deletion/correction is valid.
(4) Late entries will be avoided by timely logging of events. Occasionally, information may be received after an event that will require annotation as a late event. Make a “late entry” as follows: in the left-hand margin corresponding to where the entry should have been recorded, place an asterisk (“*”). Enter the “late entry” on the next available line and place another asterisk in the left-hand margin, i.e.:

*0800
0820
*0815 Description of the event.

(5) Log entries are made in the third person.

(6) Lines are not skipped between entries.

c. Types of Logs. Watchstanders maintain the following logs.

(1) Quarterdeck Log. The quarterdeck log is a chronological documentation of important events which occur during a watch. Entries include, but are not limited to:

   (a) Assumption of the watch by the OOD. The first entry in the watch will always be "(time) OOD PROPERLY ASSUMED BY M/C (name)." Then log the status of cameras (i.e., “All cameras in focus and working properly”).

   (b) If there is any discrepancy in the video surveillance system, the QDW shall log it and report it to the CDO immediately.

   (c) Personnel reporting aboard/detaching from NAPS for duty or emergency leave.

   (d) Details of any unusual occurrence, fire, or injury to NAPS personnel to include action taken by the watch/assistance personnel.

   (e) Details of serious violations of NAPS regulations discovered or viewed by the watch, to include action taken.

   (f) Arrival, departure, and identification of any visitors to the quarterdeck or of any unaccompanied, non-NAPS personnel located in Ripley Hall.

   (g) Relief of the OOD. The last entry of the watch will be “(time) PROPERLY RELIEVED AS OOD BY M/C (name).” The signature of the off going OOD and their printed name (underneath the signature). This signature acknowledges full responsibility for the correctness and validity of these entries. When the watch is secured, close out the page.

   (2) Company Liberty Log. This log is where all M/Cs will sign in and out for liberty. Maintained on the Quarterdeck during all times.
