

11 (a) Record of Immunization Form

Complete demographics on the “IMMUNIZATION RECORD FOR UNITED STATES NAVAL ACADEMY APPOINTEES.” Your physician or other licensed health care provider **MUST** complete the vaccination history. Please mail one copy and hand carry two copies of this form to the Induction Day Immunization Station. Please do not leave this paperwork in your bags. This form is very important to us as it will determine the immunizations you will receive on I-Day. Please ensure all of the **REQUIRED** immunizations as noted on that form are received. They must be documented in month, day and year format otherwise the record will not be accepted. Mail your immunization paperwork to Medical Records, NHC Annapolis, 695 Kinkaid Rd, Annapolis, MD 21402.

Vaccine information sheets are available at <http://www.cdc.gov/vaccines> electronically if you have questions on the vaccines. We request that you review the information about the vaccines directly on website. We do not plan on handing out vaccine information sheets to every student on I-Day. It is expected that you will review the vaccine information sheets prior to your arrival on I-day. We will be happy to discuss any questions that you have on I-day.

Any vaccines not given prior to I-Day will be given on that day at no cost to the student. Please note that one dose of Tdap is required after age 11. One dose of Menactra or Menveo vaccines is required after age 16 and within the past 5 years. If your provider does not have those vaccines, please do not accept a substitute vaccination.

Bexsero or Trumenba are vaccines for MenB protection. We have decided to vaccinate all Plebes against MenB by using Bexsero. MenB vaccination (Bexsero or Trumenba) is required. Our preference is Bexsero because it follows our schedule but we will continue Trumenba if you started prior to I Day.

We will be using Adenovirus oral (4/7) at the USNA. This vaccine cannot be given by your health care provider because it’s approved for military use only. We will provide the oral vaccine on Induction Day. Please review <https://www.cdc.gov/vaccines/hcp/vis/vis-statements/adenovirus.html> (or search Adenovirus VIS). A urine pregnancy test will be done prior to starting Induction Day for all females due to the strict requirements of the Adenovirus vaccine. We recommend full hydration on arrival to allow urine collection.

In addition to the required vaccines, we highly recommend the HPV and COVID-19 vaccine for all students attending the Academy. We will start or continue the HPV9 vaccine for all men and women unless you specifically refuse on I-Day. The COVID-19 vaccine is approved under Emergency Use Authorization. We encourage you to get the vaccine prior to arrival. However, we do plan to offer the vaccination unless you

specifically refuse to all incoming students if supply allows. Please visit <https://www.cdc.gov/vaccines/covid-19/index.html> to learn more about COVID-19 vaccination and review the Emergency Use Authorization.

A documented **Mantoux Tuberculin Skin Test (PPD) or QuantiFERON®-TB Gold** must have been performed after Jan 1 of this year. Please ensure that the provider documents this reading in millimeters. If the reading is documented without millimeter read, you will be required to repeat. If you did the blood test for tuberculosis, please attach the results to this form (and bring 2 copies with you). If you have a positive test, please bring copies or the evaluation done by your provider to include the x-ray report (if you still have one) to I-day. We will have a provider review that evaluation to ensure that it was appropriate and complete.

You **MUST** return this form to the address listed by **15 May (or within 2 weeks of receiving this package)**. In addition, you **MUST** bring **TWO** copies of the completed form (IMMUNIZATION RECORD FOR UNITED STATES NAVAL ACADEMY APPOINTEES) along with a completed “NHCA IMMUNIZATION GENERAL CONSENT (BMU and BHC)” with you when reporting to the Academy on I-Day. If a healthcare provider has any questions regarding immunizations, the provider can contact our immunization clinic at 410-293-1128. This phone number is for health care providers only. Parents and students should not be contacting the immunization clinic directly. In summary, the required forms for immunizations are:

- Immunization Record For United States Naval Academy Appointees (1 mailed, 2 copies for I Day)
Please bring the **TWO** copies of the Immunization Record For United States Naval Academy Appointees and one copy of the NHCA Immunization General Consent with you to the Immunization Station on I Day. Do not leave in your bag. Your bags will be collected prior to the Immunization Station.
- DHA 207 NHC Annapolis “COVID19 Vaccine Screening and Immunization Documentation”
- DD3111 Adult NHC Annapolis “Routine Immunization Screening Form: Adult”
- If you had a positive PPD, please bring documentation of therapy and evaluation that was done.

The Admissions Office and Midshipmen Personnel will not be able to help you in regards to immunization questions. All immunizations other than HPV and COVID-19 are required.
