C Clearance for Nonmilitary/Nonaircrew Personnel to Fly in USN/USMC Aircraft

This form shall be provided by the flight approving authority.

To the applicant: Please read carefully: You are requesting clearance to fly in military aircraft as a nonaircrew observer. Prior to flying, you are required to complete aviation physiology and aviation water survival training. These training programs require a high level of fitness and stamina. You will be required to complete training in complete flight gear, including helmet, gloves, boots, flight suit, parachute harness, and survival vest. Training includes a 25-yard surface swim, treading water for 2 minutes, downproofing for 2 minutes, and orally inflating your life preserver. Underwater egress training requires you to swim 15 yards underwater in a flight suit and boots. Additionally, you will receive hypoxia recognition training in a hypobaric chamber to simulate altitude of 25,000 feet. Actual flight may be in high performance ejection seat aircraft capable of sustained high g-force maneuvering. To obtain clearance to fly in military aircraft, you are required to obtain a physical examination from your personal physician at your expense. Please fill out the medical questionnaire and have your physician fill out the physical examination section of this form. You must then present this completed form to a Navy Flight Surgeon for endorsement for training and flight.

Yes No Medical Questionnaire - Do you have or have you ever had:

1. Disease of the eyes, ears, sinuses, seasonal allergies, hayfever, difficulty with clearing your ears, or pain in your ears or sinuses from diving or flying?

2. Chest pain, angina, heart attack, heart disease, heart murmur, palpitations, cardiac catheterizations, or pacemaker?

3. Hypertension, stroke, blood clots in legs, swelling in feet, or excessive fatigue with mild exertion?

4. Asthma, wheezing, emphysema, chronic cough, tuberculosis, collapsed lung, or shortness of breath with mild exertion?

5. Disease of the bowel, ulcers, rectal bleeding, chronic abdominal pain, herna, kidney stone, or painful or frequent urination?

6. Arthritis, joint deformity, chronic back pain, or limitation of use of your back or extremities?

7. Paralysis, weakness of muscles, seizures, epilepsy, migraine or other severe headaches, loss of consciousness, or amnesia?

8. Mania, depression, schizophrenia, suicide attempt, alcoholism, panic attacks, fear of flying, fear of heights, fear of enclosed spaces?

9. Anemia, diabetes, cancers, arterial gas embolism, bends, surgery, hospitalization, or other chronic medical conditions not listed?

10. Are you currently pregnant?

11. Are you currently taking any medication? List:

12. Can you jog 15 minutes continuously and swim 100 yards? SSN Age Sex

TO THE EXAMINING PHYSICIAN

This person is seeking clearance to fly military aircraft as a non-crew observer. He or she will be required to complete aviation physiology and water survival training. These training programs are designated as High Risk Training (described on the front of this form) and require a high degree of physiology and psychological stamina. Completion of these training programs may lead to actual flight in high performance ejection seat aircraft capable of sustained high G-force maneuvering. The purpose of this evaluation is to clear this individual for the required training as well as actual flight.

Please Complete and Elaborate on all Abnormal Findings and Positive Responses
