

MIDN 1/C John M. Hanling, a computer science major, was the recipient of the Class of 1979 Trident Scholar Prize for best Trident project for Academic Year 2020. His Trident project was entitled “Proofs of Retrievability with Low Server Storage”. His faculty mentor was Associate Professor Daniel S. Roche of the Computer Science Department. His external collaborators included Mr. Gaspard Anthoine, Professor Jean-Guillaume Dumas, Associate Professor Aude Maignan, and Associate Professor Clément Pernet from Université Grenoble Alpes.

Midn 1/C John Hanling

Honorable mention was earned by MIDN 1/C Christian Hoffman, a chemistry major, with his project entitled “Advancing the Synthesis of Polyionic Biocomposite Materials by the Natural Fiber Welding Process”. His advisers were CDR David P. Durkin, USN, Professor Paul C. Trulove, and Assistant Professor Elizabeth A. Yates of the Chemistry Department with external collaboration from Dr. Jeremiah Woodcock from the National Institute of Standards and Technology.
